

# Zaigum Naseem

.Net Developer / React Developer at SoundDrop

I'm Front-End React Developer with extensive experience in open-source solutions, I bring a passion for creating innovative and automated solutions. My expertise spans across JavaScript, React JS, and a range of other development platforms. Over the past 2 years, I've collaborated with teams to deliver high-quality, user-centric applications, always treating each project with the utmost care and commitment. My skill set includes working with modern front-end technologies.

My skill set includes working with modern front-end technologies, and I also have experience with Asp .NET and Microsoft technologies. I'm here to help you transform your ideas into functional, dynamic web applications
